

## **Protecting our Second Amendment Rights**

I am a proud member of the National Rifle Association, and a proud supporter of our state's concealed handgun carry law. I co-authored legislation to expand our state's Castle Doctrine to allow the use of deadly force by law abiding citizens in the defense of ourselves or our property anywhere we have a right to be free of violent crime. Under the new law, we no longer have the legal obligation to seek retreat if we are under assault, but now have the right to stand and defend our ground.
